

Meet Mrs. W
(WISE)

SHE HAS THE CLEANEST
HOUSE IN TOWN . . .
SHE HAS A **GAS**
INCINERATOR!

She doesn't burn her trash in the backyard
... nor dump the garbage in an old unsanitary
can. Nor does she have to worry about fire
hazard from outside trash burners.

Mrs. W has a right to be proud . . . she takes
care of her garbage and waste disposal prob-
lems with her clean, efficient GAS-fired inci-
nerator. Automatically, too, her GAS-fired in-
cinerator consumes all trash, waste and gar-
bage . . . she merely sets the dial.

No wonder she's proud. You will be too with
this simple, safe and economical way to dispose
of trash and all garbage.

Why wait any longer?
