

Name change for Vectren

Vectren is a wholly owned subsidiary of CenterPoint Energy.

CenterPoint announced in early March that it will retire the Vectren name and transition over to using the CenterPoint name and logo for customers in both Indiana and Ohio.

The company stated that the transition will be "gradual" and includes updating the name and logo on various company assets such as buildings, trucks and uniforms.

The plan is for the transition to be finished in late April, with the addition of CenterPoint Energy's name and logo on customer-facing assets such as the bill, website and automated phone system.

Customers should still visit vectren.com to access account information online and call 1-800-227-1376 to report emergencies or reach company representatives.
